TRACETOOLS
The Open source hub for investigators

Dear all

Thanks for subscribing to my webinars online. The following tools are just a few from my tools list but are the ones highlighted in the webinars.

To access my Tracetools tools list (over 400 of them) for free, for ever, you will need to subscribe to my website here (GDPR compliancy):

www.bentac.co.uk/subscribe.

I will then be able to send you the tools password for the member's section.

Once subscribed, I will send you periodic updated tools lists, news regarding dates of free online webinars, and other training opportunities.

If you have already done this, then there is no need to do it again.

Please note- Open-source tools come and go, and the links either go down or change. If this happens, please just search for alternatives, there are always others doing the same job.

Tools use is the responsibility of the user. The tools mentioned are third parties, and Tracetools hold no liability for their use. We simply make you aware of their existence.

SOCMINT tools list

Top Tools

- Teaching privacy ready or not
- onemilliontweetmap
- Wigle.net
- Opencellid
- Cellmapper
- Social mention
- Social bearing
